About Pine Crest Global

Pine Crest Global F.Z.E is a UAE-based business solutions and project supply partner operating from Ajman Free Zone. We support clients with smart home automation, cyber security, IT solutions and building technology supply for modern residential, commercial, hospitality and project environments.

Our approach is built on practical project understanding: clear requirements, suitable technology selection, competitive sourcing, coordination with contractors and consultants, and reliable support throughout the project cycle.

Vision

To become a trusted technology and project supply partner in the UAE and international markets by delivering smart, secure and future-ready solutions for modern living and business environments.

Mission

To provide high-quality automation, cyber security, IT and building technology solutions that combine functionality, convenience, energy efficiency, safety and long-term value.

Core Business Pillars

SmartHome Automation

Connected living solutions for villas, apartments, hotels and retrofit projects.

Cyber Security

Advisory, assurance, resilience, monitoring and response services for organizations.

IT & Infrastructure

Technology supply and implementation support for secure modern environments.

Project Supply

Commercial sourcing and supply coordination for project requirements.

Smart Home Automation

Connected living, simplified

Smart systems designed to enhance comfort, improve security, reduce energy consumption and provide convenient control through mobile apps, voice assistants and automation scenes.

What We Offer

Smart Security Systems

Surveillance, smartlocks, motion sensors and remote access control connected through smartphone monitoring.

Intelligent Lighting & Climate Control

Automated lighting and thermostat control for comfort, efficiency and mood settings.

Home Entertainment Integration

Integrated smart theatre, audio and video experiences for premium homes and hospitality spaces.

Voice and App Control

Convenient control through mobile applications and voice assistants such as Alexa, Google Assistant and Apple HomeKit.

Smart Switches & Sockets

Modern connected control points suitable for new projects and retrofit requirements.

Curtain & Blind Control

Motorized curtain and blind automation for convenience, privacy and energy control.

Aqara Product Solutions

Pine Crest Global can offer Aqara smart home solutions for residential and hospitality requirements where flexible, app-based automation and cost-effective deployment are required.

Solution Categories

Smart homes with practical control

Each solution can be designed as a standalone package or combined into an integrated system depending on project scope, budget, site conditions and client preference.

Smart Security Systems

Monitor and protect your home with intelligent surveillance, smart locks, motion sensors and remote access control.

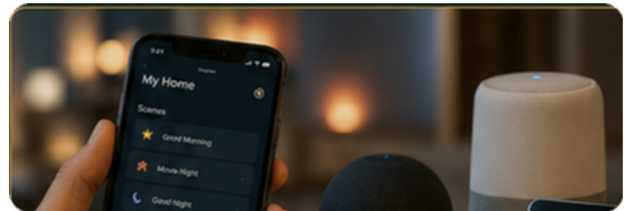

Lighting & Climate Control

Automate lighting and thermostat control to create mood settings, improve comfort and reduce energy consumption.

Home Entertainment Integration

Deliver immersive audio and video experiences with smart home theatres and multi-room audio systems.

Voice & App Control

Connect your home to Alexa, Google Assistant or Apple HomeKit for seamless voice control and automation.

Positioning Statement

PineCrest Global helps clients select the right level of automation - from entry-level app-based control to premium integrated smart living systems.

Cyber Security

Pine Crest Global supports organizations with cyber security services designed to strengthen governance, reduce risk, improve resilience and prepare businesses for modern digital threats.

Cyber Security Services

Assurance, Governance & Resilience

- SOC 1 Type 1 & Type 2 Audit & Attestation
- Business Continuity & IT Disaster Recovery (BCP & IT DR)
- Red Teaming Exercises (as part of Penetration Testing)
- Data Privacy Compliance and Certification
- CISO as a Service (Virtual CISO)
- DPO as a Service (Virtual DPO - Data Protection Officer)

OT, Cloud, Testing & Response

- SCADA and ICS Cybersecurity (OT Security)
- Training for Cybersecurity, Privacy, AI Governance, Lead Auditor Courses, and Business Continuity
- Cloud & Infrastructure Security
- Vulnerability Assessments & Penetration Testing
- Compliance & Risk Advisory
- Incident Response & Monitoring

Cyber Security Service Focus Areas

Governance, Risk & Compliance

Risk assessment, policy development, compliance advisory, audit readiness and certification support.

Assurance & Testing

Vulnerability assessment, penetration testing and red teaming to identify weaknesses before attackers do.

Business Resilience

BCP, IT disaster recovery planning, incident response readiness and recovery strategy.

Security Leadership

Virtual CISO and Virtual DPO services for organizations requiring expert guidance without full-time hiring.

OT / ICS Security

SCADA and industrial control system cyber security for operational technology environments.

Training & Awareness

Cybersecurity, privacy, AI governance, lead auditor and continuity training for teams and leadership.

Security is part of the solution, not an afterthought

Pine CrestGlobal positions cyber security as a practical business enabler - helping clients protect data, operations, infrastructure and reputation.

Trusted Brands & Technology Ecosystem

We work with established smart home, automation and security technology brands to offer suitable solutions for different project budgets, design expectations and technical requirements.

Technology Ecosystem

Aqara

Yale Smart Living

SwitchBot

TIS

Hikvision

ORVIBO

Ring

Philips

Google Nest

Zennio

KNX

Control4

Lutron

Crestron

Savant

Sonos

Ubiquiti

Ajax

Brand Selection Note

Brand selection may vary based on project scope, system compatibility, stock availability, budget and client preference. Pine Crest Global can support brand evaluation, technical comparison and solution alignment before project finalization.

Brand names are referenced for technology ecosystem discussion; trademarks belong to their respective owners.

Project Delivery Approach

Pine Crest Global adds value by understanding the project requirement, preparing suitable options and coordinating with stakeholders for smooth approvals, supply and after-sales support.

How We Add Value

- Understanding the project requirement and client priorities before proposing a solution.
- Preparing suitable technical and commercial options instead of offering one-size-fits-all systems.
- Coordinating with consultants, contractors, MEP teams and procurement teams for smooth approvals.
- Supporting timely supply, delivery planning and after-sales coordination.
- Helping clients balance quality, budget, compatibility, scalability and long-term support.

Commercially practical

We do not push one technology route. We help compare technical fit, budget, availability, project risk and future scalability before finalizing the solution.

Why Choose Pine Crest Global?

Customized Solutions

Designed around the project, lifestyle, budget and technical expectations.

Expert Coordination

Professional support during selection, quotation, approval, supply and implementation stages.

Future-Ready Systems

Scalable smart solutions that can grow with the client's future requirements.

Commercial Practicality

Balanced focus on quality, value, delivery reliability and project feasibility.

Security-Minded Approach

Technology solutions aligned with cybersecurity, privacy and resilience considerations.

Long-Term Support

Ongoing assistance, maintenance coordination and practical after-sales support.

Industries & Project Segments

- Villas and luxury residences
- Apartments and residential towers
- Hotels and serviced apartments
- Commercial offices
- Retail and showroom spaces
- Developers, contractors and consultants
- Interior fit-out and MEP contractors
- Procurement teams and project owners

Empowering your business

Comprehensive industry-focused solutions for smarter, safer and more connected environments.
